## GLOW PLUGS

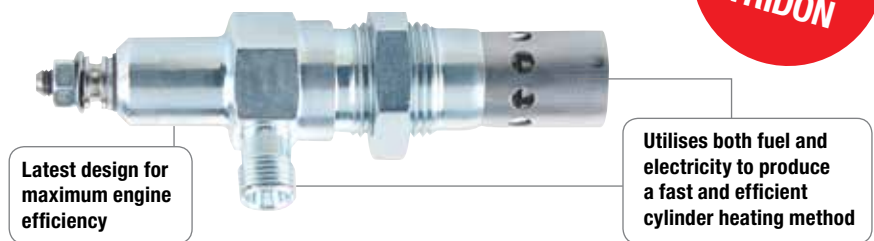

The Tridon glow plug range has been developed to meet or exceed the requirements demanded from modern diesel engines. Produced within OEM factories and production lines of leading OEM brands, Tridon glow plugs have the highest quality and performance standards from over 50 years of development.

Tridon glow plugs offer the latest designs and materials allowing for maximum heating and starting efficiency in even the coldest of conditions. Our exclusive 'flame type' glow plug demonstrates the cutting-edge technology of utilising fuel and electricity for fast and effective heating.
