

## CONNECTOR FITMENT GUIDE

- 1.** Identify the small mounting hole on the wiper blade

- 2.** Ensure securing hole on connector is on small mounting hole side. Press connector down onto blade with the rivet aligned to the centre slot

- 3.** Push connector to the right until rivet clicks into place and connector securing hole aligns with mounting hole

- 4.** Using the larger bolt (M4) and nut (7mm), insert through the blade and finger tighten

- 5.** Use a phillips screwdriver and 7mm spanner to tighten nut and bolt until secured

- 6.** Image above shows connector installed correctly
